

2 LIFE HERDGUARD BENEFITS

- Galfan (alloy of zinc and aluminium) coating GUARANTEES extra life - 2 times the life of heavily galvanised wire.
- Centre-less rolls, full length of the roll usable (no snags when unwinding)
- Deep crimp to aid elasticity when pulling tightly during erection, contraction & expansion during extreme weather conditions and stability when stock exert pressure.
- Gripple factory fitted on HT rolls.
- Special winding avoids 'baggy' rolls.
